Microsoft Flight Simulator X
IN DEVELOPMENT

SEVEN Different BBJ aircraft included SEVEN Different BBJ interiors

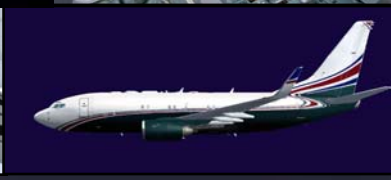
www.arianedesign.com

With the world at your feet and 27,000 LBS of thrust behind you, you can still fly for 12 hours+ without refuelling! The new V3 BBJ has even more features than the original from its HDX, 32-bit photo-quality wood; metal & glass, its DECAL technology, (detail so fine you can read the warning text and see the VIP passengers faces), along with a suite of interiors now **included** in the BASE PACK, its famous opening

See why more simulator pilots are adding the Ariane Boeing BBJ to their own VIP fleet.

ALL NEW V3.5

Breakfast in London ... Dinner where you like ...



laptops blinds and doors, its swiveling seats sliding screens & exclusive window views & an upgraded, long-range sophisticated yet managed suite of instruments & still sporting the largest number of working switches in the world. **BBJ**. *The most advanced private jet simulation in the world got better.*

NEW BBJ VERSION V3 - Luxury Class at 41,000 feet - redefined.

BBJ *Boeing Business Jet*

Over 100 airlines

URL: http://www.arianedesign.com/dept.asp?dept_id=42

If you have never seen our 32 bit illustrations then you are missing out but that is not all ...

Our unique Aircraft Expansion Sets not only add the most realistic photo rendering to your aircraft, they actually 'engineer' your BASE PACK with a new set of specially designed data so the aircraft you fly is a **carbon copy** of the version that was **delivered to the real airline**!

Rated Engines. Performance-related FMC. Correct Photo Livery ***(over 200 layers)***

Painted by REAL Airline Artists. High Definition - HD files.

Serial Numbers. Line data and more...

Don't put up with cheap and tacky illegal imitations.

Download the real thing and get registered for some serious free gifts in 2007.
Miss it and you will miss out !
